

Agenda No:	5.1
Mtg Date:	Apr. 22/13

**Delegation to the Regional Board**

The Central Okanagan Division of Family Practice (DoFP) has requested an opportunity to make a presentation to the RDCO Board.

The DoFP presentation will be aimed at informing local government leaders of the proposed collaborative multi stakeholder effort toward **“Improving Community Health in the Central Okanagan”**. This presentation is a follow-up to a stakeholder discussion and dialogue meeting that was held on March 13<sup>th</sup> which included representatives from the City of Kelowna, UBC-O Medical School, IHA, RDCO, etc. – I have since received information regarding the announcement of a local government grant program that supports Healthy Communities Capacity Building with up to \$5000 per local government available – in our Central Okanagan community this could represent an opportunity for up to \$25,000 in capacity building funding.

The proposed DoFP G&S presentation is intended to provide information only and will be supported by a delegation from the Division of Family Practice including Tristan Smith (Executive Director), Dr. Roger Crittenden, Dr. Mark Fromberg and Dr. Mike Koss.

Murray Kopp  
Director - Regional Parks
